

# D&R Greenway's Land Preservation Vision

This map indicates the 13 greenways that we envision for central New Jersey and an emerging greenway in Salem County. Our vision is to permanently protect lands to create unbroken corridors of preservation.

*"D&R Greenway was the first non-profit to complete a transaction with a New Jersey Department of Environmental Protection Green Acres grant. Since then, D&R Greenway has been a leader in leveraging public preservation dollars with private contributions to permanently protect land throughout our region."*

John S. Watson, Jr.  
NJDEP Deputy Commissioner for Natural Resources
